City of One Hundred Spires

Step back in time in Prague, an incredible tapestry of remarkably preserved medieval brilliance.

Visit the Old Town, a UNESCO World Heritage Site. Its main square was a major crossroads on 12th-century trade routes, and so it was the focal point of the city's early development. Today, it is a repository of Romanesque, baroque and Gothic splendor. Among the buildings you will see are the Týn Church and the 15th-century Astronomical Clock, which comes alive every hour with its "Walk of the Apostles." Continue to Prague Castle. Within this massive complex, see the Gothic St. Vitus Cathedral in which the good St. Wenceslas is entombed behind polished emeralds and stones. You will also see the grand castle itself, residence of the Czech president and the powerful seat of Bohemian kings and Holy Roman emperors of old.

Demanding - Physically challenging activities, including extensive walks, hiking, riding, water sports, and high altitude activities. Activities by foot may contain difficult, unpaved surfaces and/or multiple stairs and steep inclines. Total time walking or standing may exceed 3 hours.
